

# MAINS

Made To Measure

MAINS WATER CO.

**At Mains Water Co, we also specialise in crafting custom-sized baths and basins, tailored to meet your unique needs and desires. With decades of expertise and state-of-the-art manufacturing facilities, we create pieces that blend functionality with artistry, turning everyday moments into luxurious experiences.**

**Whether you're looking to maximize space in a compact bathroom or create a statement piece in a larger setting, our diverse range of options ensures a perfect fit. Our commitment to quality and precision means every product is meticulously crafted to deliver unparalleled comfort and style.**

**Let us help you transform your bathroom into a masterpiece of design and relaxation.**

Please note —  
Mains Water Co. has detailed, to the best of its ability, the most approximate measurement possible for each product given the method of manufacturing used.

Due to varying manufacturing methods, the dimensions illustrated here are nominal and subject to change without notice.

Baths	+/- 20mm
Basins	+/- 5mm
Vanities	+/- 5mm

All holes for tapware and fixings to be drilled on-site by a licensed plumber in accordance with site conditions and specified accessories. For more information please request Installation Guide.

H: 560

Bento For Inset Basins with Harper Inset Basin. Colour: Sage

## Care

**Solid Surface care:**  
Clean with a soapy sponge, followed by a rinse. For stubborn stains such as lime scale or soap build up use a mild abrasive cleaner like Gumption® paste, Jif® cream or Ajax® cream or powder – use with a soft damp cloth in wide circular motions.

**Resin Coat Care:**  
Clean with a neutral, non-abrasive cleaner. Scouring agents abrasive cleaning agents such as scouring sponges not suitable for cleaning Resincoat. It is best to clean with warm water and then thoroughly rinsed.

Smaller scratches can be polished out with a little skill, in the same way as they can be removed from car paintwork.

**Timber Care:**  
Clean the vanity unit regularly with a damp cloth and a mild cleaner. Avoid using harsh chemicals as these can damage the unit. Wipe up any spills immediately to prevent staining.

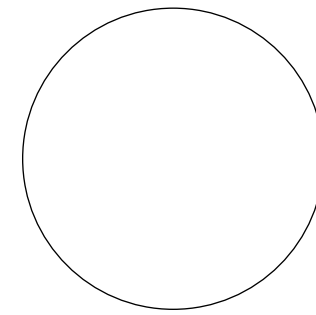

To remove a stain, begin by washing the affected area with soap and water. This alone will remove many stains, provided they are water- soluble.

Do not use an abrasive cleaner. Light marks can be removed with a mixture of half methylated spirits half water, then wipe dry with a clean soft cloth.
